

# Metalux

Celebrating 50+ years, Metalux offers an extensive line of LED lighting products including recessed, linear and industrial fixtures.

Metalux's complete family of luminaires are dedicated to the latest solid state lighting and driver technology for optimal performance and energy efficiency.

Metalux delivers innovation, quality, product availability, and responsiveness all with an affordable value proposition.

The product selection guides are simple yet powerful tools to help assist with product comparisons and selection based on features, performance and value.

## Industrial LED Vaportite

# Metalux

🛛 Best 🖿

Metalux's sealed and gasketed products deliver maximum operation and reliability in complex environments where the elements require more than just a standard light fixture.

# **Corelite Neo-Ray**

Corelite and Neo-Ray offer a unique array of high performance LED luminaires perfectly suited for today's architectural interior environments.

Combining modern details and high optical performance, Corelite and Neo-Ray's innovative approach to linear, recessed and surfacemounted luminaires make it the ultimate solution for applications with both demanding energy requirements and uncompromising aesthetics.

The product selection guides are simple yet powerful tools to help assist with product comparisons and selection based on features, performance and value.

9 Architectural LED - Recessed

- **10** Architectural LED Linear Suspended
- **11** Architectural Linear LED- Lines of Light

## Architectural LED Recessed

# Corelite

Whether lighting schools, offices, or hospitals on a budget, **Corelite's** commercial recessed products offer a complete family of innovative, affordable, and energy saving LED solutions for your next project.

# **Fail-Safe**

Fail-Safe is a leading provider of specialty grade lighting products designed to perform in a wide variety of complex environments.

Fail-Safe's complete family of luminaires are designed to meet the most demanding applications needs in medical / healthcare, vandal resistant, correctional, cleanroom, and specialty / custom lighting.

The product selection guides are simple yet powerful tools to help assist with product comparisons and selection based on features, performance and value.

Medical Spaces - LED 13, 14 **Correctional Spaces - LED** 15, 16 17 **Cleanroom Spaces - LED** Linear Vandal Resistant - LED 18 Indoor Vandal Resistant - LED 19 Vandal Resistant Wall Packs - LED 20 Downlights - LED 21 Troffer - LED 22

## Fail-Safe

## Patient rooms

#### **Multi-function vs multi-compartment**

- Multi-function fixtures have a variety of functions and light outputs in a single fixture.
- Multi-compartment fixtures place each function in a distinctly separate compartment.

#### Multiple lights in one package

- Patient bed lights need to perform a variety of functions within a single fixture.
- Typical functions include ambient, exam, reading, nightlight, and chart light.

#### Mounting

• Patient bed lights can be ceiling mounted above or beside the bed, or to the headwall.

## **Operating rooms**

#### **Operating room layout**

- Troffers typically used to form high lumen perimeter around operating table.
- Downlights typically used around perimeter of operating theater.

#### MIL-STD-461-G

- Rated to provide high level of protection against radiated and conducted electromagnetic interference (EMI).
- Protects certain sensitive equipment used in some operating rooms.

#### Green LEDs for auxiliary lighting

• Green LEDs used as auxiliary and supplemental lighting to primary white LEDs. If requested by the surgical staff, green LEDs are available for specification.

# Medical Spaces

## **Fail-Safe**

## Behavioral health

#### Form and function

- Fixtures should have aesthetic appeal while maintaining high structural security.
- Continue visual themes from non-behavioral health areas.

#### Self harm resistant

- Designed to protect against self harm by patients.
- Polycarbonate lens and tamperproof hardware used to withstand high abuse.

### **Disease prevention and control**

• Antimicrobial Matte White paint finish protects against disease propagation.

## Exam rooms

#### High light levels and light quality

- High lumen levels needed for performing patient examinations.
- High CRI available for aid in visual evaluation of patient and symptoms.

#### Ease of cleaning

Click on products

to learn more

• Wipedown design and NSF (National Sanitation Foundation) rating make regular cleaning of fixtures easier.

#### **Disease prevention and control**

• Antimicrobial Matte White paint finish protects against disease propogation.

## Unsupervised Areas

- Inmates regularly present in these areas for long periods of time
- Guards only pass by periodically; not continuously present
- Fixtures typically mounted at lower heights and easy to reach
- Lens and metal thicknesses are thick to withstand regular, extended periods of potential high abuse

## Supervised Areas

- Inmates occasionally present in these areas
- Guards regularly present, able to respond quickly to inmates attempting to damage fixtures
- Fixture mounting heights low, medium, or high depending on space/application
- Lens and metal thicknesses withstand intermittent, moderate abuse

## Non-Correctional Areas

- Inmates never/rarely present
- Guards rarely present
- Improved aesthetic appearance desired
- Lenses can be polycarbonate or acrylic

## **Control** Systems

### **TCS Touch Control System**

• High security capacitive touch bolt

in wall

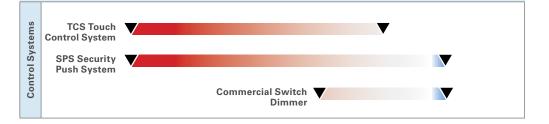

Remote override capacity
 Integral to fixture or remote

#### SPS Security Push System

- Security push switch, integral to fixture
- Local single fixture/circuit control

### Commercial Switch / Dimmer

- Non-tamper resistant
- Offers on/off and dimming

# Cleanroom Spaces

## Fail-Safe

### **Cleanroom Ratings**

- ISO standard ratings (1-9) are used to identify products suitable for those cleanroom rated conditions.
- FED-STD-209E has been replaced by ISO 14644-1, but is still referenced in some specifications.
- For both systems, lower numbers correspond to stricter cleanroom ratings.

Amber

Yellow

Optional

Upon Request

### **Hose Down Ratings**

- IP 65 is low pressure hose down.
- IP 66 is high pressure hose down.
- First digit signifies dust ingress protection rating (1-6) and second digit represents liquid ingress protection (1-6 for hosedown). In both cases, the higher the number, the better the seal on the fixture.

## **NSF Ratings**

- NSF (National Sanitation Foundation) provides certified product for use in commercial food processing applications.
- NSF rating can serve as a good indicator of the ability to easily clean/wipe down products.

### **Narrow Spectrum Illumination**

- Red light is used in vivarium (enclosed structure for animal observation or research) applications.
- Green light is used in operating rooms.
- Amber and Yellow are used in various industrial processes.

Notes: 1.  $\star \star \star =$  high applicability,  $\star \star =$  medium applicability,  $\star =$  low applicability, blank = non-applicable 2. Fixtures rated ISO 5 are compatible with cleanrooms rated ISO 5 or higher.

# **Sure-Lites**

Sure-Lites has been the trusted name and industry leader for emergency and exit lighting for over 30 years. Sure-Lites offers a full line of innovative emergency and exit lighting products designed for commercial, industrial, hospitality, educational and multi-housing residential spaces.

Sure-Lites products are designed to meet and exceed today's building codes. Our products offer maximum reliability and performance while minimizing installation and maintenance costs. From ease of installation to performance-enhancing electronics to time-saving features, Sure-Lites is focused on advancing technology to develop the most effective emergency and exit lighting solutions.

The product selection guides are simple yet powerful tools to help assist with product comparisons and selection based on features, performance and value.

# **Lighting controls**

Make your workspace work for you. Eaton's connected lighting systems take the guesswork out of managing your facility, seamlessly adapting to patterns and preferences. With solutions that let you easily manage comfort, productivity and energy savings, it pays to be connected.

Lighting the spaces where we congregate - whether for work, for entertainment, education or services is fundamental to our experience and performance. Maximizing those interactions requires specific design, cost and efficiency considerations.

The product selection guides are simple yet powerful tools to help assist with product comparisons and selection based on features, performance and value.

# Why use Controls?

**Rising conduit and wire costs** Conduit and copper has seen continued cost increase, as much as 22% over the past 12 months.

- Eliminate up to 60% of the wire runs
- Less wire Less pipe

#### Shortage of qualified labor

80% of electrical contracting firms are reporting difficulty filling hourly craft worker positions and higher salaries.

- Save up to 45 minutes per control zone
- Less time Less people

#### Installation times

Get off the job at least 40% faster simple install and simple setup.

- More jobs with the same people means more money for you
- Faster install

#### Energy savings

How do you make sure you meet local code and provide energy savings to your customer?

- Network Lighting Controls (NLCs) provide 47-70% savings with integrated luminaire lighting controls
- Up to 70% energy savings

Wired or Wireless, code-compliant and cost-effective for today's **Electrician** 

Training

How do you keep up with the latest technology? Eaton provides local and classroom certification programs

- Learn how the system works in as little as 2 hours
- Simply mobile

#### Instructional videos

What if I need a tutorial on site? WaveLinx has fifteen, 5 minute videos that walk you through it.

- Free mobile app
- Free training videos

#### **Utility incentives**

Many states provide rebate incentives for LED fixtures with integrated sensors.

- Less material to install, and the rebate pays for it
- Incentives up to \$75 per fixture

### Cybersecurity

Are you concerned with cybersecurity? Good, but know that WaveLinx has the UL2900-1 listing for Network Cybersecurity.

- Help customers stay secure
- Peace of mind that the product is backed by UL for cybersecurity

28

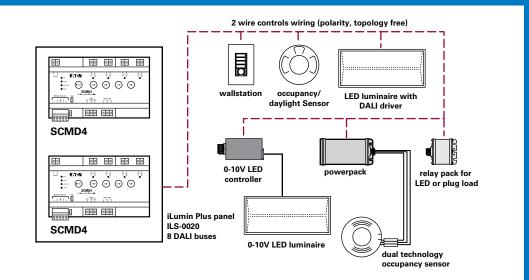

Wired

# **ILumin Plus**

Your wired solution to control complete building lighting via area (relay), zone (0-10v) or fixture (2-wire or DMX) all from one system.

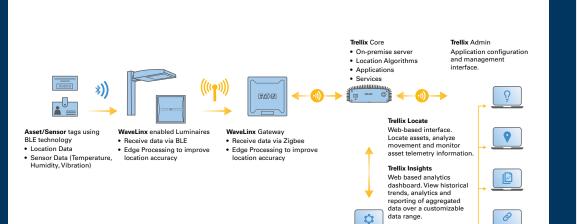

- Simplified control wiring
- Achieve more wired applications
- Control a floor or entire building

# WaveLinx & DLVP

Electrical Contractors use basic wiring practices they already know to complete projects and get off the job faster with the most comprehensive and cost effective system on the market.

- No special wiring required
- Get more jobs done faster
- Feel safe with industry best UL2900 listing
- Control a room, floor or entire building
